## PROFILE

Looking for opportunities in IT and Data, in my current role I evaluate the IT processes and infrastructure of a client.

I am also involved internally in application/tool development using python, azure functions, and langchain

Background education in Information Sciences at the University of Illinois Urbana-Champaign. Here I learned a variety of technical skills involving IT systems, programming, and database management.

## EXPERIENCE

**IT Audit Consultant**, Protiviti  
2024-Present

- On internal programming team as a back end developer, building internal tools, applications, and accelerators
- When on client work responsible for ensuring the compliance and effectiveness of client's information systems and testing ITGC controls

**UIUC iSchool Advisor**  
2023-2024

- Tutored students in the Information and Data Science programs
- Managing and editing iSchool sharepoint website

**Assistant Public Defender**, Montgomery County Courthouse  
2021

- Managing client information, inventory, and communicating logistics between separate offices
